COUNSELING SERVICES

Child & Family Services’ mission is “...to heal and strengthen the lives of children and families.”
COUNSELING SERVICES
Child and Family’s comprehensive mental health services help individuals and families cope with the challenges that life often puts before us. Counselors are available to help deal with the many problems confronting children, teens, adults, seniors and families.

If you or a family member is facing any of these or other issues, we can help:
- Depression
- Anxiety
- Grief
- Trauma Recovery
- Family and Relationship Problems
- Behavioral Problems
- Attention Deficit/Hyperactivity

Trained therapists will conduct a comprehensive assessment to determine the needs of the individual and family and how we can best be of service.

SCHOOL-BASED SERVICES
Schools are in a unique position to identify students who may be in need of emotional support. Child and Family, in cooperation with local school districts, provides counselors on-site at over 35 schools in the Greater New Bedford and Fall River areas.

School-based services allows the counselor and the school to work together to address that often complex needs of the student and their family.

PSYCHIATRIC SERVICES
Some individuals need more than talking therapy to help resolve their issues. When necessary, psychiatric services are also available for persons involved in counseling at Child & Family. Our doctors provide a psychiatric assessment and, when necessary, medication management as part of our comprehensive treatment services.

SUPPORT GROUPS
We also offer support groups to help with:
- Bereavement
- Anxiety Disorders
- Anger Management
- Trauma
